What to expect

Prior to starting your online learning journey, you will receive a handbook for your Element 1 training. This handbook will contain important information regarding your upcoming sessions such as a short bio on your two tutors, your Zoom link and course dates, what will be covered within each session, what you must bring to your sessions, your takeaway tasks and links to relevant reading / resources.

When arranging your place on this course, please factor in that you will need to complete some tasks in between some of the sessions. For example, taking a photo of your setting to discuss in the group or preparing a reflection on what you have learned so far. Participation in the online course does not involve any tests or examinations, but tasks must be submitted and a majority of sessions must be attended live via Zoom.

The Zoom sessions will involve open discussion with your tutors and other participants on your course, sometimes using Zoom's breakout rooms feature. Most participants value the learning community they develop with others. There are points in the course where you might be expected to present results of discussions, takeaway tasks etc.

At the end of each Element, you will receive a certificate of completion if you have attended all four sessions or have reported that a recording of a missed session has been watched. It is important to note that you must complete the foundation Element (Element 1) to progress onto subsequent Elements (2-6). If for any reason you do not attain your Element 1 certificate, you will not be able to continue with the rest of the course.
